During the Belle Epoque (1900—1914), the Afternoon Tea was the social forum for ladies. They would often engage in lively discussions about the latest fashions and social concerns.

1908 Tea

In 1908, the world was on the cusp of change. The traditions of the Victorians were giving way to a modern way of thinking. The automobile, airplane, changes in fashion, entertainment, and social conventions were altering the lives of people forever. Rita will entertain you during her afternoon tea as she tells you about her trip to Boston, then engage in an open discussion. www.waterfallproductions.com
